

There are still many wonders that are unknown in the deep wide ocean. This expansion pack introduces the following new advanced fish tokens: **Coelacanth, Sea Otter & Scallop, and Clione**.

Components

13 advanced fish tokens
(1 Coelacanth, 4 Sea Otter,
4 Scallop, and 4 Clione)

3 Advanced Fish Token description cards

Notes on the Advanced Rules

- * Until you get used to the game, it is recommended to use only 3 types of advanced fish tokens. (You can choose them randomly or discuss which ones to use.) Once you get used to the game, you may increase the types of tokens to use.
- * The cost of additional advanced fish tokens that have moved to the Sea board is the same as the cost for regular fish tokens - 2 funds for each token.

Expansion Victory Points

The victory points on the cards in this expansion pack are earned during final scoring.

Notes on Sea Otter & Scallop

- * Scallop tokens may be purchased by paying 1 fund for 1 scallop when buying 1 Sea Otter. Place the Scallop on the Sea Otter in one Event Tank.
- * The Sea Otter tokens and the Scallop tokens each increase your event income by 1 fund.
- * Each Scallop token can be placed in an Event Tank only if it is on a Sea Otter token. If a Scallop token is on a Sea Otter token, you can move the Scallop without the Otter to the Sea board, but not the Sea Otter without the Scallop.
- * To buy an additional Scallop from the Sea board, you must have a Sea Otter that does not have a Scallop in the Event Tank.
- * When you count the numbers and types of advanced fish tokens, count Sea Otter tokens and Scallop tokens separately, each as one token and one type during scoring.
